SUMMARY

As an accomplished Software Development Engineer, I specialize in backend development and API design, leveraging my expertise in Java and Spring Boot. With a solid understanding of Data Structures and Algorithms, I excel in crafting scalable frameworks and features, ensuring robust performance and reliability. I take pride in leading backend teams, guiding them with a blend of logical thinking and ownership mentality. Furthermore, I have a proven track record in mentoring junior engineers and interns, fostering their growth, and conducting thorough software engineer interviews. Holding a Bachelor of Engineering in Computer Science, I bring a comprehensive skill set to any project or team.

SKILLS

✓ Java	✓ SpringBoot	✓ NoSQL(MongoDB)	✓ Rest API	✓ Microservices	✓ LLD Design Patterns
✓ Cache(Redis)	✓ Docker	✓ AWS EC2	✓ Git	✓ DSA	✓ API Security (JWT)

EXPERIENCE

SENIOR SOFTWARE ENGINEER (NEWFOLD DIGITAL) | SEPT 2024 - CURRENT

➡ **JSP TO ANGULAR MIGRATION**

- ✓ Conducted in-depth analysis of a **JSP-based** monolithic service, documenting features and system dependencies.
- ✓ Developed and optimized **RESTful APIs**, integrating **Redis caching** for high-performance data retrieval.
- ✓ Refactored and modularized backend services, leveraging existing platform components to enhance **code reusability** and **system scalability**.

➡ **PRODUCTION SUPPORT**

- ✓ Resolved high-priority production issues with detailed RCA, preventing recurrence and earning senior management recognition for rapid and effective bug fixes.

SOFTWARE DEVELOPMENT ENGINEER 2 → SDE 1 (SHOPSE – DIGITAL FINANCE) | JUL 2021 – AUG 2024

➡ **LENDING FLOW (SHOPSE APP & CHECKOUT PAGE)**

- ✓ Improved soft-approved eligibility checks with multiple lenders by using parallel streaming and automation, reducing drop-off rates by 30% and enhanced user journey, this reduced user's efforts for finding approved lender.
- ✓ Technologies: **Java8**, **Spring Boot**, **API Design**, **Redis**, Composite Design Pattern, Factory Pattern, Strategy Pattern.

➡ **CONSUMER DURABLE LENDING FLOW**

- ✓ Led the end-to-end design and development of backend APIs to enable loan journeys and provide lending options such as HDFC Easy EMI, ICICI Cardless, Moneyview (which saw a 300% sales growth), and DMI Finance, thereby establishing the ShopSe Lending platform as the flagship product.
- ✓ Integrating with several services for KYC, E-Nach setup, Account Aggregation, CIBIL Checks using strategy pattern.
- ✓ Implemented fraud prevention checks and notification framework for customer updates.
- ✓ Technologies: **API Security**, State Design Pattern, **JWT Auth**, **Redis Cache**, Pub-Sub Design Pattern, Factory Pattern, Visitor Pattern, Swagger, Docker, **Microservice**.

➡ **PAYMENT GATEWAY INTEGRATION**

- ✓ Integrated with Razorpay PG for Credit Card transactions on EMI, facilitating a seamless migration.
- ✓ Implemented **Cardless transaction journeys** for 50M+ Preapproved customers of banks like HDFC Bank, Kotak bank, ICICI Bank, and IDFC Bank
- ✓ Technologies: Factory Pattern, Pessimistic Locking, API Integration, Redis.

➡ **TEAM LEADERSHIP**

- ✓ Led a team of 5 backend engineers conducting architectural design, **code reviews** and providing mentorship.
- ✓ Conducted technical interviews and mentored new engineers.

SOFTWARE ENGINEER INTERN (PAYNAV – NEO BANK FOR SOCIAL PAYMENTS) | FEB 2021 – JUN 2021

- ✓ Implemented **Elastic stack** for log management of multiple services
- ✓ Deployed/Managed containerized applications with **Docker** on AWS EC2 instance

EDUCATION

SHREE LR TIWARI COLLEGE OF ENGINEERING, MUMBAI UNIVERSITY Mumbai, India

B.E. in COMPUTER ENGINEERING (CGPA: 9.18/10) Aug 2017 - Jun 2021

ADDITIONAL CERTIFICATES

Docker & Kubernetes Course Certification, Oracle Certified Associate Java SE 8 Programmer

HONOURS AND AWARDS

ShopSe Adarsh Award (July2022 - Sept2022), ShopSe Ratna Award (Oct2022 - Dec2022)
